

AHLS online Provider Manual

Getting Started

The AHLS Online Provider Manual is available to you digitally through the “Mimeo” online library. Due to copyright restrictions, the manual cannot be saved as a PDF outside of the app. In addition, each page of the manual contains a non-removable watermark displaying the email address used for login and key redemption.

You may access the manual at any time through your computer browser or on the device of your choice on which the manual has been downloaded for offline use.

Steps:

1. Create your free account at <https://AHLS.mimeo.digital/> (Please confirm the verification email before attempting your first login.)
Alternatively, download the Mimeo Digital app from your preferred app store: [Apple](#), [Google Play](#), [Windows](#), oder [Amazon](#).
2. Once logged in, click on “**Redeem a Key**” and enter your code.
3. Your content will now load.
4. You may now interact with the content, download it for offline viewing — within the app only — and save notes.
5. If you need assistance, please visit the live support service for 24/7 customer support.
